

CITY CENTRE REDEVELOPMENT OPEN HOUSE

The City of Spruce Grove held an open house on Wednesday May 4th from 5pm - 8pm at the Pioneer Centre on Jespersen Avenue. The Open House gave an opportunity for interested parties to learn about the upcoming streetscape redevelopment project for McLeod Avenue and Main Street in the City Centre. This planned project will enhance the area as one of the City's main commercial and social destinations and help to create a more pedestrian focused environment by improving sidewalks and street crossings, adding street trees, landscaping and places to gather.

This project will also include rehabilitation of the underground infrastructure to service businesses and residents and create the opportunity for new development.
